

# Deere & Company Government Affairs Department

## Government Matters

# Hot Issues

Click on the image below for our most recent issue.

Virtually every aspect of John Deere's business and the work of its employees is touched by public policy issues at the federal, state or international level. For instance, tax and trade laws are constantly being reviewed, while new regulations covering products, services, processes and other aspects of our business are being considered.

Browse these pages to learn more about the issues the Government Affairs Department tracks and works on. Or find a specific issue that affects your work by subject matter or SBU using this search engine:
