

# We all must share one precious resource.

Kuwait Petroleum Corporation (KPC) is a dependable leader in the world's oil industry, managing Kuwait's growing and diversified oil interests.

We are firmly committed to the responsible production of oil from our nation's reserves, which account for 10 percent of the world's supply. With U.S.

and international partners, our goal is to reach three million barrels per day in oil production by the year 2005.

By doing so, KPC will continue to contribute to economic growth and prosperity throughout the world in support of stability and freedom.
